

PAYNES

Electrical Work

All the work we carry out for you is fully guaranteed and insured for all domestic, commercial and industrial work. The work is certified and in full compliance with current building BS:7671 regulations.

Power for All Your Needs

Supplying the correct amount of power, safely, is a priority in any home or building. Our highly qualified electricians install and repair all wiring and distribution systems to keep your power on - whenever you need it.

"The quality of their work is unmatched, as you as the customer are their main focus."

-H Hilden via Google Reviews

Electrical Services

Our team are qualified to safely and efficiently carry out all electrical work, including:

- Identifying and rectifying faults.
- Full or partial rewiring of buildings.
- Repair of existing sockets and outlets.
- Adding new power and lighting points and accessories.
- Installation and repair of boilers, heaters and underfloor heating.
- Plan and carry out maintenance and inspection programmes.
- Replace fuse-boxes and upgrade earthing.
- PAT testing and safety checks.
- Installation and maintenance of emergency lighting.
- Electrics for showers, cookers and extensions.
- Certification of electrics to the latest British standards.
